THEY THOUGHT OF EVERYTHING

- > Lower roof height for easy car park and ferry access
- > Convenient sidestep makes loading and entry easier than ever

BEST OF BOTH WORLDS

- > Plug-in hybrid electric vehicle (PHEV) tech delivers the best of both worlds; petrol power plus quiet all-electric cruising⁶
- > PHEV power helps access to low-emission zones
- > New suspension and eight-speed automatic transmission for an even smoother ride

REFRESH AND REST

- > Hot and cold rear shower, with optional tailgate privacy tent⁵
- > Optional awning for shelter and more outdoor space⁵

THE RIGHT HEADSPACE

- > Tilt roof with new self-folding fabric for easy operation
- > Optional solar roof can produce enough electricity to power onboard equipment – and top up the leisure battery⁵

¹ Don't drive while distracted or while using handheld devices. Use voice-operated systems when possible. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.
² FordPass Connect, the FordPass App, and complimentary Connected Service are required for remote features (see FordPass Terms for

details). Connected service and features depend on compatible network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Connected service excludes Wi-Fi hotspot.

³ Requires phone with active data service and compatible software. SYNC 4 does not control 3rd party products while in use. 3rd Parties are solely responsible for their respective functionality.
⁴ Available Qi wireless charging may not be compatible with all mobile phones.

⁵ Feature availability dependent on vehicle specification.
⁶ Ford Transit Custom Nugget (exc. PHEV) homologated CO₂ emissions 234-266 g/km WLTP, homologated fuel efficiency 8.9-10.1 l/100 km WLTP. Ford Nugget Plug-In Hybrid officially homologated fuel efficiency and CO₂ emissions figures will be published closer to on-sale date.

The declared WLTP fuel/energy consumptions, CO₂-Emissions and electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. The applied standard test procedures enable comparison between different vehicle types and different manufacturers.
